# You SHINE

**The You Share You Shine association  
breathes new life into the extra belongings  
we are fortunate to have but no longer  
need, for the good of those who have less  
and for the planet.**

We coordinate and encourage responsible environmental and social action using simple ideas inspired by common sense recycling.

Since 2016, we have collected:

\* extra or unused blankets with **Cover Stories**.

\* toothbrushes, toothpaste and other toiletry items with **Business Class Angels**, who gather airline amenity kits from business and first-class travelers.

\* bath and hand towels from hotels and spas with **Extra Towel**.

« I am convinced that through simple actions filled with common sense, we can help those in need. We can do this, for example, by sharing with others what we are fortunate to have but no longer need. »

# You share You SHINE

**Association created by Juliette Dumas**

Inspired by her Shine state of mind, which she created and adopted to rekindle her inner light. Shine is a source of goodness that glows within and radiates to those around us.

**"As we let our own light shine, we  
unconsciously give other people permission  
to do the same."  
(Nelson Mandela)**

With the founding members by her side **Aline Tauzias, Christine Fourcade-Goyard and Emmanuel Maze-Sensier**, she upholds the purpose and vision of You Share You Shine: sharing what we are fortunate to have but no longer need, for the good of those who have less.

**Association governed by the law of July 1, 1901  
and the decree of August 16, 1901**
